

# ANOTHER FUN PACKED TERM AT MLS

We learned and had lots of fun on the way!

## Unleashing Young Potential

Einstein once said, “Everybody is a genius. But if you judge a fish by its ability to climb a tree, it will live its whole life believing that it’s stupid.” Sadly, many of us grow up learning a very narrow definition of intelligence. We believe that if we don’t do well academically or understand something instantly, we’re somehow behind.

With this notion in mind our Secondary students were asked to ‘unleash their thoughts’ any way they choose. We were happily surprised watching the presentation after the presentation sharing their ideas and their future plans with all of us.

Watching them, we were assured that Egypt’s future is in a good hand.

## Our Spelling Bee

Every year a big number of our students, from grade 2 to grade 9 participate in the Spelling Competition. A sense of accomplishment and pride is felt by the students who partake in a spelling competition, and the social benefits of bonding, healthy competition, and sportsmanship can be recognized enhancing students' sense of pride.

## Inventing the Future

MLS has participated in the "New Inventions in Science Exhibition" held at Manarat El Farouk School. Our students presented their fantastic projects. Judges were really impressed with our students work.

Well done: Yehia Gasser Sabry (3rd. Prep E), Shams El Dien Mohamed (3rd. Prep D), Judy Gasser Sabry.  
Wish you all the best.

## Baheya Charity Visit

MLS took our Primary, Preparatory & Secondary Students to visit Baheya Foundation for Treatment of Breast Cancer and donated a generous amount of money. Such charity activities are meant to give our students a sense of responsibility towards the community and those in need.

School Administration would like to thank Dr. Dina Abdel Aziz for facilitating this visit.

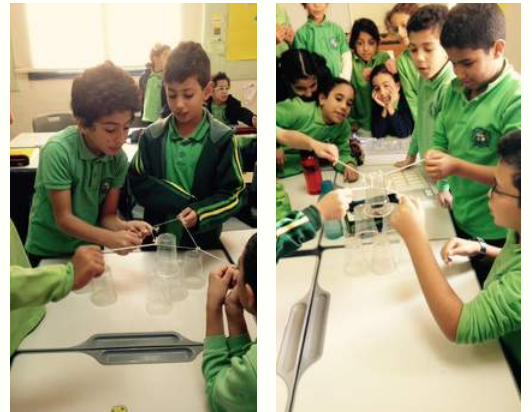

## A Trip to the Stars

Students went to the planetarium to take part in a theatre workshop. Students were extremely excited to learn all about astronomy and the night sky. It was one day to remember filled with knowledge, fun and new experiences.

## Beyond the Classroom

At MLS we believe in character building can be done proactively through planned actions and activities within the classroom. These classroom activities will encourage students to develop and adopt quality ethical principles and behaviors that can last far beyond the classroom.

## Efficient Use of Energy

Students spend their break time at MLS playing football, basketball and tug of war. When students find means to expend all the excess energy they have, they are better positioned to succeed in the classroom. Additional benefits to participate in the break activities are: improved attentiveness, boosted learning productivity, reduce stress levels, and development of social skills.

## Our Distinguished Students Awards

# Arts for Cognitive Development

Students all ages enjoyed drawing and coloring and they enjoyed learning all about the arts. Prep were also given the opportunity to appreciate the importance of art.

Art has been proven to help with “critical thinking and verbal skills” as well as “motivation, concentration, confidence and teamwork”.

SENDING YOU ALL OUR WARMEST  
WISHES FROM MLS

*Happy  
New Year!*
